

# BETON TROWEL

CONCRETE FINISHING  
& COMPACTION

## BTCS06EE 6 INCH EARLY ENTRY SAW

The BTCS06EE Concrete Cutter is a versatile and efficient cutting tool designed to help you save time and effort on your concrete cutting projects. With its lightweight construction and polyurethane wheels, you can start cutting within just two hours of finishing your concrete work, minimizing waiting time and maximizing productivity. Whether you're a professional contractor or a DIY enthusiast, the BTCS06EE Concrete Cutter is the perfect choice for your concrete cutting needs.

- Shallow cutting depths reduce the risk of random cracks and ensure precision cutting
- Saving the waiting time after the finishing process. You can pour and cut concrete on the same day
- Light weight with polyurethane wheels promises to work within 2 hours after the finishing process
- Enclosed blade cover effectively reduces dust diffusion and promotes a safe working environment
- Easy to transport and store with its foldable handle
- Clear depth indicator for accurate cutting depth adjustments
- Vac port on blade cover (optional) for even cleaner work environment

### SPECIFICATIONS:

- Dimensions: 1730x485x850 mm
- Weight: 40kg
- Blade Size: 165 mm (6.5")
- Max. Cutting Depth: 30 mm
- Depth Adjustment: Manual
- Self-Propel: No
- Guide Releasing: Manual
- Engine: Honda GX120
- Output Power: 2,5 kW (3.5HP)
